Information

Please read the following important information before continuing.

Firebird Database Server 2.5

This document is a guide to installing this package of Firebird 2.5 on the Windows platform. These notes refer to the installation package itself, rather than Firebird 2.5 in general. In addition, these notes are primarily aimed at users of the binary installer.

It is assumed that readers of this document are already familiar with Firebird 2.1. If you are evaluating Firebird 2.5 as part of a migration from FB 2.1 you are advised to review the FB 2.5 documentation to understand the changes made between 2.1 and 2.5.
